

Young People's Drug  
& Alcohol Services

## Parent/Carer Workshop

*Opening up communication about alcohol and drugs with your teenager*

**Want to pre-empt conversations you might need to start having with teenagers about alcohol/drug use?**

Mosaic are offering a mini virtual workshop to share best practice in getting the most out of a conversation, and to consider how you as a parent/carer respond.

Talking about it does not mean you condone it, but hopefully it will create better understanding and an opportunity to educate and support your loved one.
