

8th September 2023

Dear Parent/Carer

Re: Subscription to My GCSE Science

As part of our commitment to supporting your child through their Science GCSEs, the school would like to offer you a subscription to **My GCSE Science** video tutorials and exam-preparation resources, which are ***much more powerful and interactive than using textbooks or revision guides.***

My GCSE Science resources can be used alongside classroom teaching, to learn at home in the event of illness or school closure and to support your child's independent revision in the lead-up to their GCSE exams. The resources are ideal for catching up on classwork after absence, or for reviewing topics that your child has found more challenging. Of course, Science teachers will continue to offer help to individual students as required, but all students will really benefit using these resources.

The video tutorials have been created by experienced classroom teachers, who are subject specialists. Diagrams, illustrations, graph drawing and worked examples all help create a rich, supportive learning environment. The videos map directly to the GCSE specification, precisely and comprehensively. To allow flexibility for your child, the videos can be watched on laptops, tablets or smartphones.

Multiple-choice quizzes are provided alongside each video. The quizzes are marked automatically and direct feedback is provided for all answers. The results of the quizzes feed directly through to your child's Progress Tracker, with 'traffic-lights' on the video dashboards for each subject. The structure provided by the Progress Tracker will help your child navigate the substantial amount of content on the course and encourage their progress. Exam-style questions, accompanied by mark schemes, are also provided for each topic. These help your child apply their knowledge and develop their exam technique.

It is strongly recommended that parents opt in to this package. If you would like to have a closer look before ordering, please go to www.my-GCSEscience.com where you can find much more information. Parents can sign their children up for free 'Entry Level' resources, before deciding whether to upgrade to a Double or Triple Award subscription.

Because the school will be buying in bulk, it has been able to ***negotiate a subscription price for parents which is far below the individual subscription rate,*** as shown below:

	Expiry	Purchased from school	Purchased from My GCSE Science	Discount
Double Award	30-Jun-25	£7.95	£49.90	-84%
Triple Option	30-Jun-25	£15.95	£99.80	-84%

Payment items have been added to ParentPay – please ensure you are purchasing the correct item for child, either double or triple science by 15th September 2023.

ST JAMES'
CATHOLIC HIGH SCHOOL

Yours faithfully

Mrs Charmaine Brown
Director of Science
